PROMOTING ATTENDANCE DURING REMOTE and HYBRID LEARNING
FIVE KEY AREAS

1

Contact
Update and maintain current contact information on students and families.

2

Connectivity
Students need internet access, proper equipment, and training for students and families to utilize learning platforms.

3

Relationships
Strong relationships with caring adults and educators are key to keeping students and families involved in school and learning.

4

Participation
Schools and districts should track whether students participate in online classes or access other remote learning.

5

Chronic Absence
Monitoring chronic absence really matters. When schools track absences, they can see if extra support or enrichment is needed to ensure academic success

Attendance Works
Advancing Student Success By Reducing Chronic Absence
